

BE PART OF OUR SUSTAINABLE FUTURE

Overland Conveyor (OLC) Supervisor

Working within the Coal Handling and Preparation Plant (CHPP) Maintenance team, your main responsibility is to ensure the reliability and availability of the OLC (Overland Conveyor) at Curragh mine site.

You will lead your crew of qualified tradespeople to undertake the following key responsibilities:

- Maintaining equipment, condition monitoring, performance assessing, breakdown maintenance tasks
- Daily inspections, OLC, fixed assets
- Housekeeping, OLC system
- Training, assist crews to be trained on equipment and development of training documentation
- Down day maintenance, preparation of site, location of resources, recovery of materials, recycling of parts and equipment. Maintenance and supervising contractor activities
- Waste material management, organise and supervise recycling of waste materials with approved contractors.

Ideally, the successful candidate will have the following attributes:

- Electrical or Mechanical trade qualification and a minimum 3 years experience working with Overland Conveyor systems;
- S1, S2, S3 or equivalent Supervisory Authorisation;
- Minimum 2 years supervisory experience in a mining or heavy industry environment;
- Sound knowledge of statutory laws and regulations governing maintenance at open cut coal mines;
- Good organizational, communication and computer literacy skills.

You will be rewarded with premium pay, subsidised housing, incentive plans, a supportive community and, as we're part of Wesfarmers, unique career opportunities. Located on site in Blackwater, this position is full-time Monday to Friday.

To apply please submit your application by 19 March 2010 to:
